

Forklift Spreader Bars

Forklift Spreader Bars - Proudly operating ever since 1974, ELME Spreader AB is the largest independent spreader producer in the world. They have been a devoted producer of spreaders meant for numerous applications like for example the trailers, handling of containers and swap bodies.

Engineering is done in house by using all the latest FEM tools and CAD systems. The ELME business now employs over one hundred twenty five personnel. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes around the globe.

The product collection of ELME comprises lots of spreaders utilized for different container and trailer handling operations. A few of their inventory comprise: Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers, Harbour Cranes, Lift trucks in addition to a huge array of attachments.

ELME manufacturing and production is done in a highly automated purpose built factory. In 2008, they created more than 1150 spreaders by utilizing top quality components to ensure dependability and excellent standards while offering competitive prices. Major characteristics of ELME include design simplicity, market feedback and inventive modular spreader concept.
